

GASTRO INTESTINAL FORMULA GIF 518

GIF 518 is a formula that supports Gastro-Intestinal health and helps to maintain a normal healthy Gastro-Intestinal System. The healthier our digestive system is, the healthier we will be. But over time your digestive system can take a battering with refined foods, antibiotics, food chemicals, pesticides, alcohol and so on. It is no wonder our Digestive System starts to back down and show symptoms of not working as well as it should. GIF 518 is formulated so that it may support and restore our digestive system back to good health.

GIF 518 contains a good dose of Glutamine and Glucosamine:

- **Glutamine** is known as the principal metabolic fuel for the epithelial cells of the gastrointestinal tract.
- **Glucosamine** can be thought of as the building block needed for the health of the intestinal lining.
- **Ulmus Rubra (Slippery Elm)** is well known in herbal medicine as a mucilage herb, with traditional uses as a healing and soothing herb for the digestive system. Ulmus Rubra (Slippery Elm) is both soluble and insoluble fibres that assist in bulking the stool.
- **Dibasic Sodium Phosphate** is to help, maintain and support normal Bowel movement.
- **Quercetin** helps to heal leaky gut; it helps to stabilize mast cells in the gastro intestinal lining. Quercetin has been shown to enhance gut barrier function, reducing systems of leaky gut syndrome.
- **Guar gum and Pectin** (Prebiotic fibres) have been shown to support healthy gut bacteria and promote health villi in the digestive system.
- **Aloe Vera** is known for its healing properties. The anti-inflammatory properties of Aloe-Vera help to reduce gastrointestinal inflammation.
- **Curcuminoids from C3 complex 95%** is added to provide fast acting assistance in relief of symptoms of inflammation, this helps the integrity as well as the function of the of the digestion lining.
- **Saccharomyces boulardii** helps to maintain healthy gut bacteria.
- **Papaya Fruit Powder** is used for its ability to aid the digestion of proteins, due to its content of Papain, a proteolytic enzyme.

DIRECTIONS FOR USE

Adults: Take One heaped teaspoon (equivalent to 6g of powder) daily, or as directed by your Healthcare Practitioner. If required it can be taken 3 times a day up to (18g) daily. GIF 518 Gastro-Intestinal Formula is suitable to be mixed in water or fruit juice or sprinkled on food.

Warning: If symptoms persist, consult your healthcare practitioner. Glucosamine is derived from seafood (Crustaceans).

GIF 518 or Vitamin supplements should not replace a balanced diet.

Contraindication/ or Caution:

Biliary obstruction was reported as a contraindication in the European scientific cooperative on phototherapy (E.S.C.O.P) monograph on Curcuma longa. The German Commission E monograph reports that curcumin should only be used after seeking professional medical advice if gallstones are present. Contact your Healthcare Practitioner for advice.

Pregnancy / Lactation:

GIF 518 should only be taken after a consultation with your Healthcare Practitioner.

Do not use if tamper evident seal is broken. Replace cap tightly after each use to protect the integrity of the product. Once opened the powder must be used within 90 days.
